### **Agreement enhances Lantheus' strong liquidity position and supports continued pipeline advancement and commercial readiness**

BEDFORD, Mass., Aug. 03, 2023 (GLOBE NEWSWIRE) -- Lantheus Holdings, Inc. ("Lantheus" or the "Company") (NASDAQ: LNTX), a company committed to improving patient outcomes through diagnostics, radiotherapeutics and artificial intelligence solutions that enable clinicians to Find, Fight and Follow disease, today announced the divestiture of its RELISTOR (methylalntrexone bromide) net sales royalties. The sale of this non-core asset strategically aligns with Lantheus' long-term vision and growth strategy, allowing the Company to enhance its focus on the core radiopharmaceutical business and fuel further investment in this growing field. HealthCare Royalty ("HCRx") has acquired the tiered, sales-based royalty rights on worldwide net sales of RELISTOR while Lantheus retains the rights to future sales-based milestone payments.

"It is an exciting time at Lantheus, with multiple ongoing late-stage radiopharmaceutical therapeutic programs that we believe have the potential to make a meaningful difference in patients' lives," said Mary Anne Heino, Chief Executive Officer of Lantheus. "The sale of the RELISTOR royalties unlocks significant value, which can be strategically channeled into our rapidly growing and evolving radiopharmaceutical business. As the leading radiopharmaceutical-focused company, we are committed to driving innovation as we Find, Fight and Follow disease to deliver better patient outcomes."

Lantheus plans to use the net proceeds of the transaction to continue to invest in its growth strategy. The sale not only provides financial flexibility, but also enables the Company to continue advancing its innovative pipeline. Under the terms of the purchase agreement, Lantheus received an initial payment of approximately \$98 million and has the right to receive an additional payment of \$5 million from HCRx if worldwide net sales of RELISTOR in 2025 exceed a specified threshold. In exchange for the payment, HCRx received the rights to the tiered, sales-based royalties on worldwide net sales of RELISTOR related to the second quarter of 2023 and subsequent quarters.

During the twelve-month period ended December 31, 2022, Lantheus reported \$22.3 million in aggregate royalties derived from net sales of RELISTOR. For the first six months of 2023, RELISTOR royalties contributed \$13.2 million of revenue and approximately \$0.13 adjusted fully diluted earnings per share.

Progenics Pharmaceuticals, Inc., a Lantheus company, licensed methylalntrexone (MNTX) along with products containing MNTX including the Tablet and Subcutaneous injection RELISTOR® products to Salix Pharmaceuticals, Inc., a Bausch Health company in 2011.

Foley Hoag LLP acted as legal advisor to Lantheus and Cadwalader, Wickersham & Taft LLP acted as legal advisor to HCRx in connection with the transaction.

#### **About RELISTOR**

RELISTOR® (methylalntrexone bromide) is an opioid antagonist. RELISTOR tablets and RELISTOR injection are indicated for the treatment of opioid-induced constipation (OIC) in adults with chronic non-cancer pain, including patients with chronic pain related to prior cancer or its treatment who do not require frequent (e.g., weekly) opioid dosage escalation.

RELISTOR injection is also indicated for the treatment of OIC in adults with advanced illness or pain caused by active cancer who require opioid dosage escalation for palliative care.

RELISTOR is not indicated to reduce all-cause mortality for opioid-induced bowel disorders.
