Item 8.01 Other Events.

As previously disclosed, on August 3, 2026, Lantheus Holdings, Inc., a Delaware corporation (“**Lantheus**” or the “**Company**”), entered into an Agreement and Plan of Merger (the “**Merger Agreement**”) by and among the Company, Curium US Holdings LLC, a Delaware limited liability company (“**Parent**”), and Coco Merger Sub Inc., a Delaware corporation and a wholly owned subsidiary of Parent (“**Merger Sub**”), pursuant to which, subject to the terms and conditions set forth therein, Merger Sub will merge with and into the Company (the “**Merger**”), with the Company surviving the Merger as a wholly owned subsidiary of Parent.

On September 8, 2026, the Company filed a definitive proxy statement with the Securities and Exchange Commission (the “**SEC**”) relating to the special meeting of its stockholders to be held on October 14, 2026 (the “**Special Meeting**”) to consider and vote on the approval of the Merger Agreement and several related proposals (the “**Definitive Proxy Statement**”). Defined terms used but not defined herein have the meanings set forth in the Definitive Proxy Statement.

Certain Litigation

Since the filing of the Definitive Proxy Statement, three complaints have been filed against the Company and certain members of the Board in connection with the Merger. Two such complaints were filed in the Supreme Court of the State of New York, County of New York: *Hamilton v. Lantheus Holdings, Inc., et al.*, Index No. 655291/2026, filed on September 16, 2026, and *McDaniels v. Lantheus Holdings, Inc., et al.*, Index No. 655281/2026, filed on September 16, 2026, and one was filed in the Superior Court of the Commonwealth of Massachusetts, Middlesex County: *Garfield v. Lantheus Holdings, Inc., et al.*, Civil Docket No. 2681CV02581, filed on September 25, 2026 (collectively, the “**Complaints**”). The Complaints generally allege, among other things, that the Definitive Proxy Statement omits or misrepresents certain information concerning the Company’s financial projections, the financial analyses performed by Morgan Stanley in connection with its fairness opinion, and potential conflicts of interest involving Company insiders, including information concerning potential post-closing employment or retention. The Complaints assert claims under state common law and seek, among other things, to enjoin consummation of the Merger unless and until certain additional information is disclosed.

In addition to the Complaints, as of September 30, 2026, the Company has received sixteen demand letters from purported stockholders of the Company, including two that attached a draft complaint (collectively, the “**Demand Letters**”). The Demand Letters generally seek disclosure of certain information allegedly omitted from the preliminary proxy statement and/or Definitive Proxy Statement. Additional demand letters or lawsuits may be received by or filed against the Company, members of the Board, Parent and/or Merger Sub in connection with the Merger or the Definitive Proxy Statement. If additional demand letters are received or complaints are filed, the Company will not necessarily announce such additional demands or filings.

Solely to avoid the costs, burden, nuisance and uncertainties inherent in litigation and to allow the Company’s stockholders to vote on the Merger at the Special Meeting, without admitting any liability or wrongdoing, the Company is providing additional disclosures related to information contained in the Definitive Proxy Statement (the “**Supplemental Disclosures**”). The Supplemental Disclosures are set forth below and should be read in conjunction with the Definitive Proxy Statement.

The Company denies that the Definitive Proxy Statement is deficient in any respect and that the Supplemental Disclosures are material or required. The Company believes that the Complaints and the Demand Letters are without merit and that no further disclosure is required to supplement the Definitive Proxy Statement under applicable laws. Nothing in this Current Report on Form 8-K will be deemed an admission of the legal necessity or materiality under any applicable laws for any of the disclosures set forth herein.

SUPPLEMENTAL DISCLOSURES

The Company hereby provides these Supplemental Disclosures to the Definitive Proxy Statement. This supplemental information should be read in conjunction with the Definitive Proxy Statement, which should be read in its entirety. For clarity, new text within restated paragraphs from the Definitive Proxy Statement is identified by **bold, underlined text**, and deleted text within restated paragraphs from the Definitive Proxy Statement is identified by ~~strikethrough text~~. If information in the Supplemental Disclosures differs from or updates information contained in the Definitive Proxy Statement, then the information in the Supplemental Disclosures is more current and supersedes the different information contained in the Definitive Proxy Statement.

1. The disclosure on page 65 of the Definitive Proxy Statement under the section titled “*The Merger – Opinion of the Company’s Financial Advisor*” is hereby supplemented by replacing the first paragraph under the heading “*Discounted Cash Flow Analysis*” with the following:

Discounted Cash Flow Analysis

Morgan Stanley performed a discounted cash flow analysis, which is designed to provide an implied value of a company by calculating the present value of the estimated future cash flows and terminal value of such company. Morgan Stanley calculated the estimated present value of the standalone unlevered free cash flows that the Company was estimated to generate from June 30, 2026 through December 31, 2035, based on the financial forecasts. Morgan Stanley then estimated the terminal values of the Company at the end of the forecast period by using a perpetual growth rate of (5.0%) for the Pylarify family of products and perpetual growth rates ranging from 4.0% to 4.5% excluding the Pylarify family of products, which perpetual growth rates were selected upon the application of Morgan Stanley’s professional judgment and experience. The cash flows and terminal values were then discounted to present value as of June 30, 2026, applying a mid-year discounting convention using discount rates ranging from 8.8% to 10.7%, which discount rates were selected, upon the application of Morgan Stanley’s professional judgment and experience, to reflect a weighted average cost of capital calculation for the Company. **Morgan Stanley calculated the weighted average cost of capital using a cost of equity derived from a risk free rate, market risk premium and beta estimates based on comparable companies, together with an estimate of the cost of debt and assumed capital structure. For purposes of this analysis, Morgan Stanley utilized a fully diluted share count, calculated using the treasury stock method, of 68.2 million shares based on 65.3 million shares of Company common stock outstanding as of July 30, 2026, 1.0 million Company PSUs, 1.5 million Company RSUs and 1.2 million Company options, with a weighted average exercise price of \$70.44 and a strike price range of \$14.59 to \$123.19, in each case as provided by management as of July 30, 2026.** Based on (i) the ~~number of~~ fully diluted shares of Company common stock ~~outstanding~~ as of July 30, 2026 ~~and~~, calculated using the treasury stock method, and (ii) the **Company’s net debt as of June 30, 2026, consisting of convertible debt of \$575 million, including the in-the-money portion of the Company’s convertible senior notes, the net present value of the Company’s net operating losses of \$29 million, contingent consideration of \$73 million and equity investments of the Company as of June 30, 2026 of \$39 million, and cash and cash equivalents of the Company of \$593 million,** in each case, as provided by the management of the Company, Morgan Stanley’s analysis resulted in an implied value per share of Company common stock of \$88.10 to \$118.60, rounded to the nearest \$0.05. Morgan Stanley compared this range to the consideration NPV.

2. The disclosure on page 66 of the Definitive Proxy Statement under the section titled “*The Merger – Opinion of the Company’s Financial Advisor*” is hereby supplemented by replacing the third and fourth paragraphs under the heading “*Publicly Traded Companies Analysis*” with the following:

Publicly Traded Companies Analysis

The multiples for each of the comparable companies were calculated using their respective closing prices on July 31, 2026, the last trading day prior to delivery of Morgan Stanley’s opinion, and were based on the most recent publicly available information as of such date. **The 25th percentile, mean, median, and 75th percentile observed for the comparable companies were as follows:**

<u>25th Percentile</u>	<u>7.9x</u>
<u>Mean</u>	<u>9.1x</u>
<u>Median</u>	<u>8.8x</u>
<u>75th Percentile</u>	<u>10.5x</u>

Based on its analysis of the relevant metrics for each of the comparable companies and for the Company, and the application of its professional judgment and experience, Morgan Stanley selected a reference range of AV/ Adjusted EBITDA multiples for estimated fiscal year 2026 of 7.9x to 10.5x. Morgan Stanley applied the selected reference range to the Company's estimated Adjusted EBITDA for fiscal year 2026, as set forth in the financial forecasts. Based on ~~the number of~~ **(i) 68.2 million fully diluted** shares of Company common stock, ~~on a fully diluted basis, outstanding~~ as of July 30, 2026 ~~and~~, calculated using the treasury stock method, and **(ii) the Company's net debt as of June 30, 2026, consisting of convertible debt of \$575 million, including** the in-the-money portion of the Company's convertible senior notes, the net present value of the Company's net operating losses **of \$29 million**, contingent consideration **of \$73 million** and equity investments of the Company ~~as of June 30, 2026 of \$39 million, and cash and cash equivalents of the Company of \$593 million~~, in each case, as provided by the management of the Company, Morgan Stanley's analysis resulted in an implied value per share of Company common stock of \$63.85 to \$84.20, rounded to the nearest \$0.05. Morgan Stanley compared this range to the consideration NPV.

3. **The disclosure on page 67 of the Definitive Proxy Statement under the section titled “The Merger – Opinion of the Company’s Financial Advisor” is hereby supplemented by replacing the first paragraph under the heading “Premia Paid Analysis” with the following:**

Premia Paid Analysis

For reference only, and not as a component of its fairness analysis, Morgan Stanley considered, based on publicly available information, transactions with **24** public healthcare targets (excluding biotechnology and pharmaceutical transactions) between \$4,000,000,000 and \$20,000,000,000 in transaction value, paid in all-cash consideration since January 1, 2015. For these transactions, Morgan Stanley noted (i) the percentage premia paid over the price on the trading day prior to deal announcement (or, for transactions that were the subject of public speculation prior to deal announcement, the trading day prior to the first date of such public speculation) (referred to in this section of the proxy statement as “the unaffected trading date” and “the unaffected stock price”, respectively), (ii) percentage premia paid over the volume weighted average stock price (“VWAP”) over a thirty-trading day period ended on the unaffected date, (iii) percentage premia paid over the VWAP over a sixty-trading day period ended on the unaffected date and (iv) the percentage premia paid over the acquired company's 52-week high price, for the period ended on the unaffected date, in each case, based on publicly available information.

4. **The disclosure on page 67 of the Definitive Proxy Statement under the section titled “The Merger – Opinion of the Company’s Financial Advisor” is hereby supplemented by replacing the first paragraph under the heading “Analysts’ Price Targets” with the following:**

Analysts’ Price Targets

For reference only, and not as a component of its fairness analysis, Morgan Stanley reviewed and analyzed future public market trading price targets for the Company common stock that were prepared and published by **14** equity research analysts on or before July 31, 2026-, **12 of whom provided price targets**. These price targets reflect each analyst's estimate of the future public market trading price of the Company common stock. The range of undiscounted analyst price targets was \$98.00 to \$129.00 per share of Company common stock.

5. The disclosure on page 69 of the Definitive Proxy Statement under the section titled “*The Merger – Opinion of the Company’s Financial Advisor*” is hereby supplemented by replacing the last paragraph under the heading “*General*” with the following:
