Safe Harbor Statements

Cautionary Statement Regarding Forward-Looking Statements

This document contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995, as amended, that are subject to risks and uncertainties and are made pursuant to the safe harbor provisions of Section 27A of the Securities Act of 1933, as amended, and Section 21E of the Securities Exchange Act of 1934, as amended. Forward-looking statements may be identified by their use of terms such as "advance," "aim," "believes," "building," "continue," "could," "creating," "driving," "evolving," "expect," "guidance," "intend", "maintain," "may," "on track," "plan," "position," "potential," "predict," "should," "target," "will," "would" and other similar terms. Such forward-looking statements include our guidance for the fiscal year 2025, our plans to expand our portfolio of late-stage assets and high potential earlystage candidates, our potential acquisitions of Life Molecular Imaging Ltd., ("Life Molecular") and Evergreen Theragnostics Inc. ("Evergreen"), and our expectations relating to adding a commercial team in the Alzheimer's space and a CDMO business from the Life Molecular acquisition, and are based upon current plans, estimates and expectations that are subject to risks and uncertainties that could cause actual results to materially differ from those described in the forward-looking statements. The inclusion of forward-looking statements should not be regarded as a representation that such plans, estimates and expectations will be achieved. Readers are cautioned not to place undue reliance on the forward-looking statements contained herein, which speak only as of the date hereof. The Company undertakes no obligation to publicly update any forward-looking statement, whether as a result of new information, future developments or otherwise, except as may be required by law. Risks and uncertainties that could cause our actual results to materially differ from those described in the forward-looking statements include: (i) continued market expansion and penetration for our established commercial products, particularly PYLARIFY and DEFINITY, in a competitive environment, and our ability to clinically and commercially differentiate our products; (ii) our ability to have third parties manufacture our products and our ability to manufacture DEFINITY in our in-house manufacturing facility, in the amounts and at the times needed; (iii) availability of raw materials, key components, and equipment, either used in the production of our products and product candidates, or in the use by HCPs of our products and product candidates, including, but not limited to PET scanners used for PYLARIFY, MK-6240 and NAV-4694; (iv) our ability to satisfy our obligations under our existing clinical development partnerships using MK-6240 or NAV-4694 as a research tool and under the license agreements through which we have rights to MK-6240 and NAV-4694, and to further develop and commercialize MK-6240 and NAV-4694. 4694 as approved products, including the timing for any potential regulatory submissions for these investigational assets; (v) our ability to successfully secure necessary shareholder and regulatory approvals relating to potential acquisitions, including of Life Molecular and Evergreen, the time and expense involved in seeking to secure those approvals, potential disruption to our business operations or those of the companies we plan to acquire while the acquisitions are pending or as a result of regulatory requirements related to the acquisitions; potential disruption to operations and productivity during the integration process after necessary approvals are secured and the potential that we are unable to integrate and realize the anticipated benefits that each acquisition is predicted to bring; (vi) our strategies, future prospects, and our projected growth, including revenue related to our collaboration agreements with POINT Biopharma Global Inc., including our ability to obtain U.S. Food and Drug Administration ("FDA") approval for PNT2002 and PNT2003 and to be successful in the patent litigation associated with PNT2003; (vii) our ability to successfully realize the anticipated benefits of our 2024 transactions with Perspective Therapeutics, Inc.; (viii) the cost, efforts and timing for clinical development, regulatory approval, adequate coding, coverage and payment and successful commercialization of our product candidates and new clinical applications and territories for our products, in each case, that we or our strategic partners may undertake: (ix) our ability to identify opportunities to collaborate with strategic partners and to acquire or in-license additional diagnostic and therapeutic product opportunities in oncology, neurology and other strategic areas and continue to grow and advance our pipeline of products.; and (x) the risk and uncertainties discussed in our filings with the Securities and Exchange Commission (including those described in the Risk Factors section in our Annual Reports on Form 10-K and our Quarterly Reports on Form 10-Q).

Non-GAAP Financial Measures

The Company uses non-GAAP financial measures, such as adjusted net income and its line components; adjusted net income per share - fully diluted; adjusted operating income and free cash flow. The Company's management believes that the presentation of these measures provides useful information to investors. These measures may assist investors in evaluating the Company's operations, period over period. However, these measures may exclude items that may be highly variable, difficult to predict and of a size that could have a substantial impact on the Company's reported results of operations for a particular period. Management uses these and other non-GAAP measures internally for evaluation of the performance of the business, including the allocation of resources and the evaluation of results relative to employee performance compensation targets. Investors should consider these non-GAAP measures only as a supplement to, not as a substitute for or as superior to, measures of financial performance prepared in accordance with GAAP.

Updated FY 2025 Financial Guidance¹

Guidance Issued February 26, 2025

The Company guidance for the full year 2025 is as follows:

Free Cash Flow to continue to expand throughout 2025 with an anticipated amount of \$550M - \$600M

- 1. On a forward-looking basis, the Company does not provide GAAP income per common share guidance or net cash provided by operating activities guidance or a reconciliation of GAAP income per common share to adjusted fully diluted EPS or net cash provided by operating activities to free cash flow because the Company is unable to predict with reasonable certainty business development and acquisition-related expenses, purchase accounting fair value adjustments and any one-time, non-recurring charges, or the net effect of non-cash items. These items are uncertain, depend on various factors, and could be material to results computed in accordance with GAAP. As a result, it is the Company's view that a quantitative reconciliation of adjusted fully diluted EPS and free cash flow on a forward-looking basis is not available without unreasonable effort.
- 2. FY 2025 guidance assumes fully diluted, weighted avg. shares outstanding of approximately 71.5M YTD, and depreciation and amortization of ~\$56M.

TRANSACTION SUMMARY

- Upfront payment of \$350 million
 - Up to \$400 million in potential earn-out and milestone payments
- Anticipated to close in the second half of 2025¹

- All cash transaction with upfront payment of \$250 million
 - Up to \$752.5 million in earn-out and milestone payments related to OCTEVY and Evergreen's clinical and pre-clinical pipeline
- Anticipated to close in the second half of 2025³

STRATEGIC BENEFITS

- ✓ Establishes a commercial franchise and accelerates entry into sizeable Alzheimer's Disease/Dementia radiodiagnostic space²
- ✓ Expands growth profile with NEURACEQ®, a globally approved F18 PET imaging agent for Alzheimer's Disease diagnostics
- ✓ Enhances R&D and clinical infrastructure and capabilities to accelerate advancement of combined portfolio
- \checkmark Strengthens innovative radiodiagnostic pipeline with complementary clinical-stage assets

- Adds scalable manufacturing platform to support development, clinical trials & commercialization efforts and accelerate development, lifecycle management and expand IP portfolio
- Enhances growth profile with OCTEVY, registrational-stage PET diagnostic agent with potential as a complementary theragnostic pair with PNT2003
- Brings proven early-stage development capabilities to create novel radiotherapeutics
 efficiently advance combined pipeline
- Expands oncology radiopharmaceutical pipeline with multiple clinical and pre-clinical theragnostic pairs

FINANCIAL BENEFITS

Expected to:

- Drive an increase in consolidated, organic annual revenue growth by approximately 200 to 300 basis points over the next three years
- Be accretive to Lantheus' Adjusted Earnings Per Share within 12 months post close
- Support Lantheus' near-term sales growth with the addition of NEURACEQ, while also expanding international footprint

Expected to:

- Drive near-term revenue with addition of OCTEVY, enhancing Lantheus' presence in NETs, and CDMO operations
- Be accretive to Lantheus' Adjusted Earnings Per Share within 18 months post close
- Accelerate & derisk critical pathways by internalizing a scalable manufacturing infrastructure that would otherwise have to be outsourced
